INTERNET SAFETY

Tips from Corvallis Police

Front

Be Known for *Smart Choices*

You are safe on the Internet when you...

- * Talk about Internet use with your parents
- * Don't give personal information
- * Don't visit adult sites
- * Don't meet Internet strangers in person

You need to know and remember that

having or sending

nude or partially nude pictures of you or your friends on your cell phone or home computer is a very serious major crime.

Doing this can send you to jail and it will ruin your life forever.
